[redacted] As a follow-up to the Agency's informal response to Chairman Miller's request for security review of the Library of Congress study "The Soviet Space Program", I met with Mr. Philip Yeager, House Science and Astronautics Committee staff, and returned to him the Chairman's letter of October 18, 1967. Although Mr. Yeager has not yet talked to Chairman Miller, he is confident the letter will be withdrawn so as to avoid publication in the Committee report. STATINTL
